**LIGHTED MIRRORS
MIRROR CABINETS
BATHROOM VANITIES**

ABOUT US

Yoway is a pioneering leader in the industry, leveraging advanced machinery to enhance precision and elevate product quality. Our cutting-edge technology ensures unparalleled accuracy, meeting rigorous standards for every mirror we produce. By harnessing the latest machinery, we minimize resource consumption, prioritizing sustainability while maintaining top-notch quality.

Renowned for our expertise in crafting **bathroom mirrors, mirror cabinets, and bathroom vanities**, Yoway embellishes premier hospitality projects globally, showcasing our steadfast commitment to excellence. Our dedication to eco-conscious manufacturing is evident through our use of **100% solar-powered electricity**, with solar panels adorning our production unit.

Yoway proudly holds **BSCI certification** and **SMETA 4-Pillar certification from TÜV**, affirming our commitment to ethical and responsible manufacturing. Additionally, our certifications guarantee ethical sourcing, fair treatment of workers, and sustainable production methods.

Our **Research and Development team** excels in rapid innovation, facilitating the swift creation of new models. With a proven track record of success, we have developed over **1,000 distinct models** tailored for hospitality projects and leading global bathroom brands.

Founded in **2010**, Yoway stands as a premier manufacturer and exporter of **bathroom mirrors**. Partnering with leading **distributors, wholesalers, project contractors, and importers** worldwide, our interior decoration, bathroom mirrors, and engineering projects are renowned for their **innovation, high quality, and efficiency**.

Located in **Shandong Province, China**, our manufacturing facility spans **20,000 SQM** of effective floor space, equipped with state-of-the-art technology and continuously improved machinery to keep our products at the forefront of the market. Adhering to **UL, CUL, CE, UKCA, ROHS, ETL, SAA, and ISO 9001 certification guidelines**, our multi-step verification and quality control processes ensure a **faster, defect-free, and highly efficient** manufacturing process.

BATHROOM VANITIES

Innovation

PRODUCT FEATURES

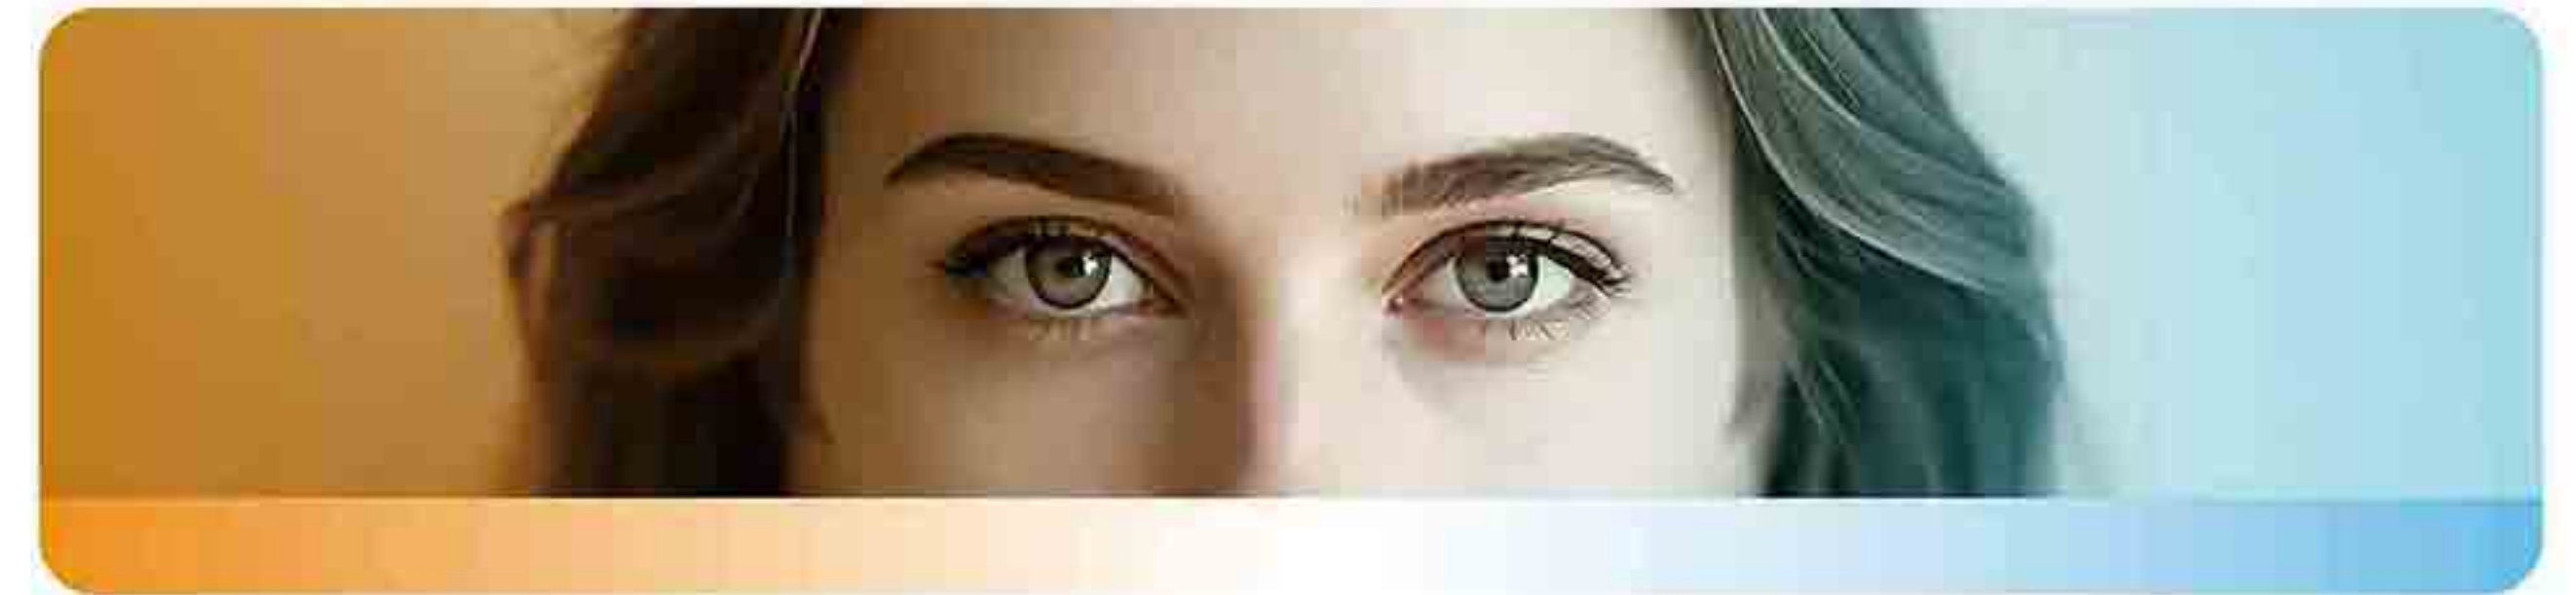

Lighting has the power to significantly alter your bathroom, extending beyond its practical functionalities. It sets the mood, adding brightness, depth, and dimensionality, while also accentuating design elements. Integrating a lighting plan during the early phases of design will shape the overall ambiance of the bathroom area.

01

LED LIGHTING

The concept of Correlated Colour Temperature (CCT) enables a smooth progression across the entire spectrum of temperatures, spanning from warm to natural, and finally to cool white light. This capability allows for precise emulation of outdoor lighting conditions, a quality that has been scientifically validated to benefit our health.

Warm-3000K

Warm white LEDs have a yellow tone and complement bathrooms featuring wooden surfaces and flooring. They also create a warm, relaxing ambiance perfect for relaxing.

Natural-4500K

Natural white sits between warm and cool white and recreates the effect of natural daylight. Natural white's versatility means it can complement a range of bathroom styles.

Cool-6000K

Cool white LEDs combine well with modern, bold and minimal themes and are great for task lighting and creating a bright and revitalising environment.

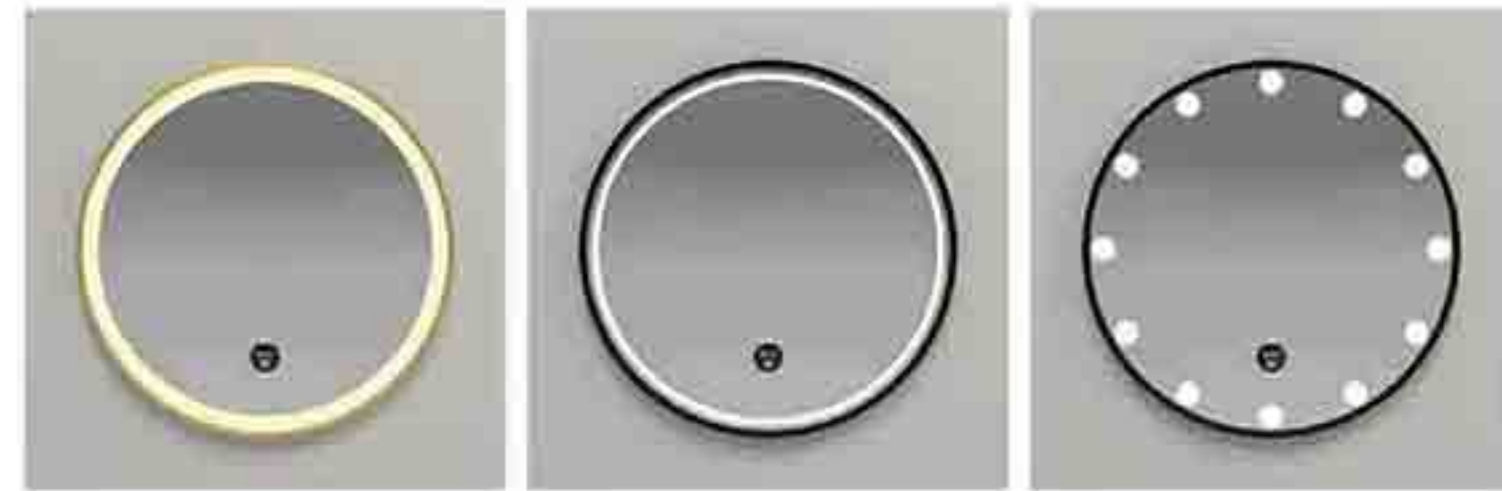

DEMISTER

Integrated demister pads consist of an exceptionally thin layer affixed to the rear surface of the mirror glass. Upon activation, they delicately heat the surrounding area of the mirror to prevent the formation of condensation and ensure clear visibility.

- Eliminates the necessity for manual wiping
- Reduces condensation and moisture accumulation
- Facilitates a streamlined lifestyle for busy individuals
- Ensures a clear surface for grooming tasks such as shaving and preparation
- Maintains the mirror's pristine appearance with fewer watermarks

SMART KNOB SWITCH

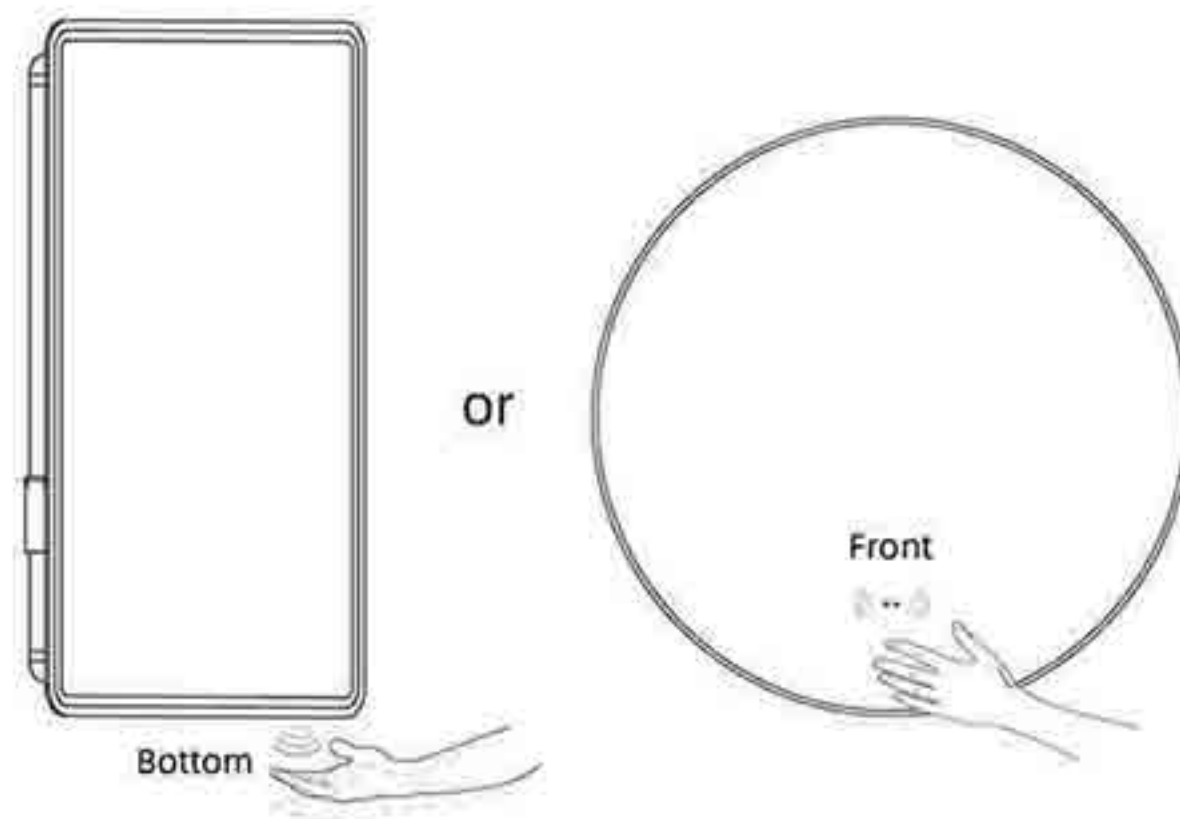

- Dimming
- Demister
- Temperature/Humidity display
- Colour change
- Time/Date display

INFRA-RED SENSORS

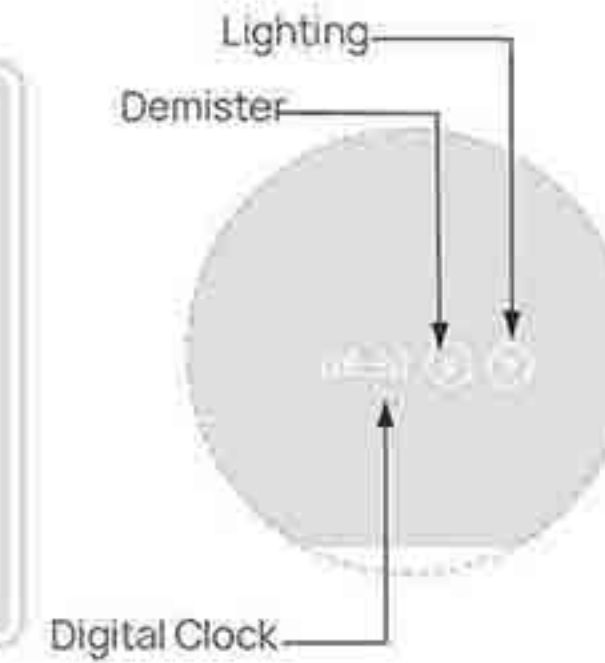

Infrared sensors are activated with a simple wave of the hand. Advanced functionalities like dimming and color control, if present, are operated by hovering the hand near the sensor, located either under or in front of the mirror.

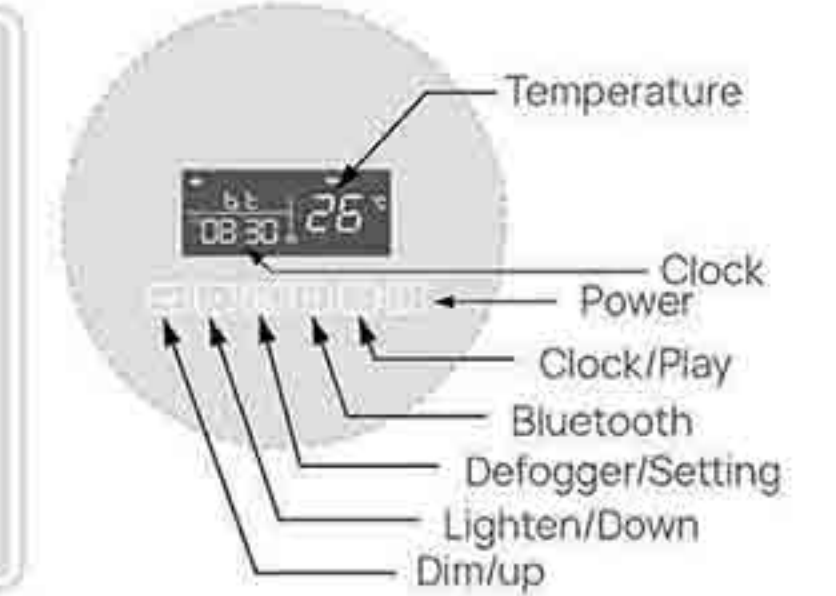

To activate, simply swipe your hand below or in front of the infrared sensor within its 80° induction range, with a distance of 50mm for induction.

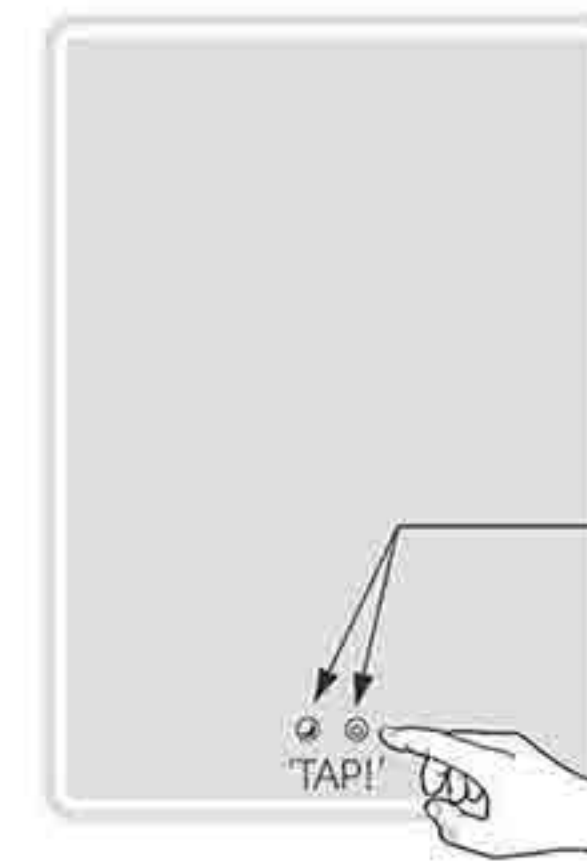

DIGITAL CLOCK

MULTIPLE SENSOR

NIGHT LIGHT (TWO TOUCH BUTTON)

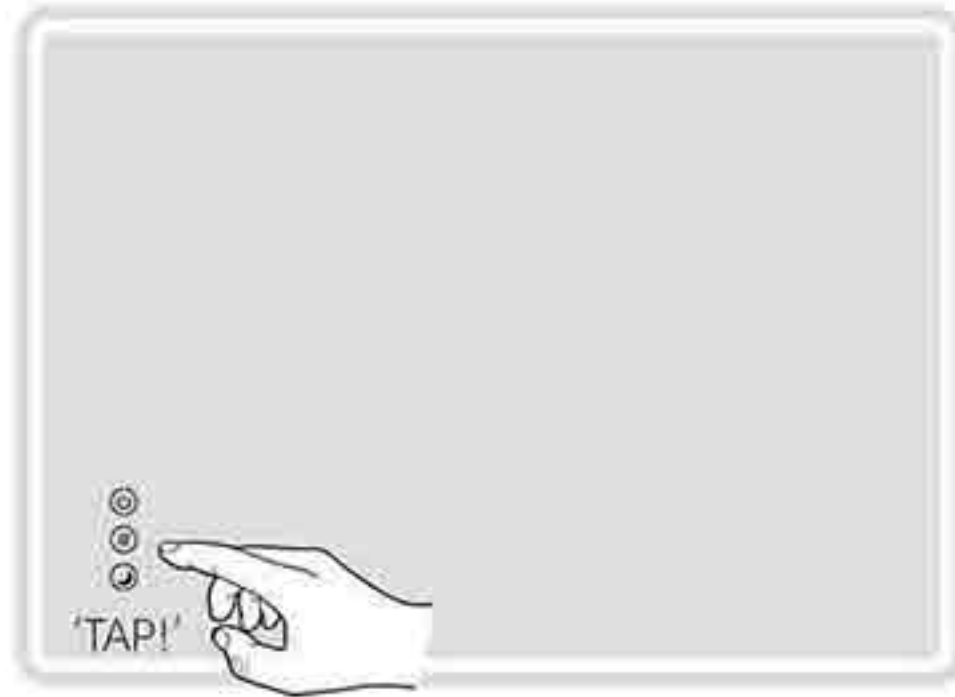

⏻ PWR Button:

- Quick tap to activate light and defogger (heating element activates for 15 minutes and then automatically switches off).
- Press and hold to dim.

🌙 Night Light Button:

- The first quick touch activates the light at the lowest dimming setting (10%).
- The second quick touch turns off the light and returns to the previous state.

NIGHT LIGHT (THREE TOUCH BUTTON)

- ⏻ PWR Button:**

 - Quick touch: Cycles through the Correlated Colour Temperatures (CCTs) in 5 touches (ON-3000K-4000K-5000K-OFF).
 - Press and Hold: First press and hold dims down to 10% and stops when released. Second press and hold dims up to maximum and stops when released.
- ☰ Demister Button:**

A quick touch activates the button, turning it red, and simultaneously activates the heating element for 15 minutes. Another touch turns off the heating element, returning the button color to white.
- 🌙 Night Light Button:**

 - Upon the first quick touch, the light activates at the lowest dimming setting (10%) and warmest Correlated Colour Temperature (CCT).
 - Upon the second quick touch, the light turns off and returns to the previous state.

TOUCH SENSORS (CUSTOMIZABLE FUNCTIONS)

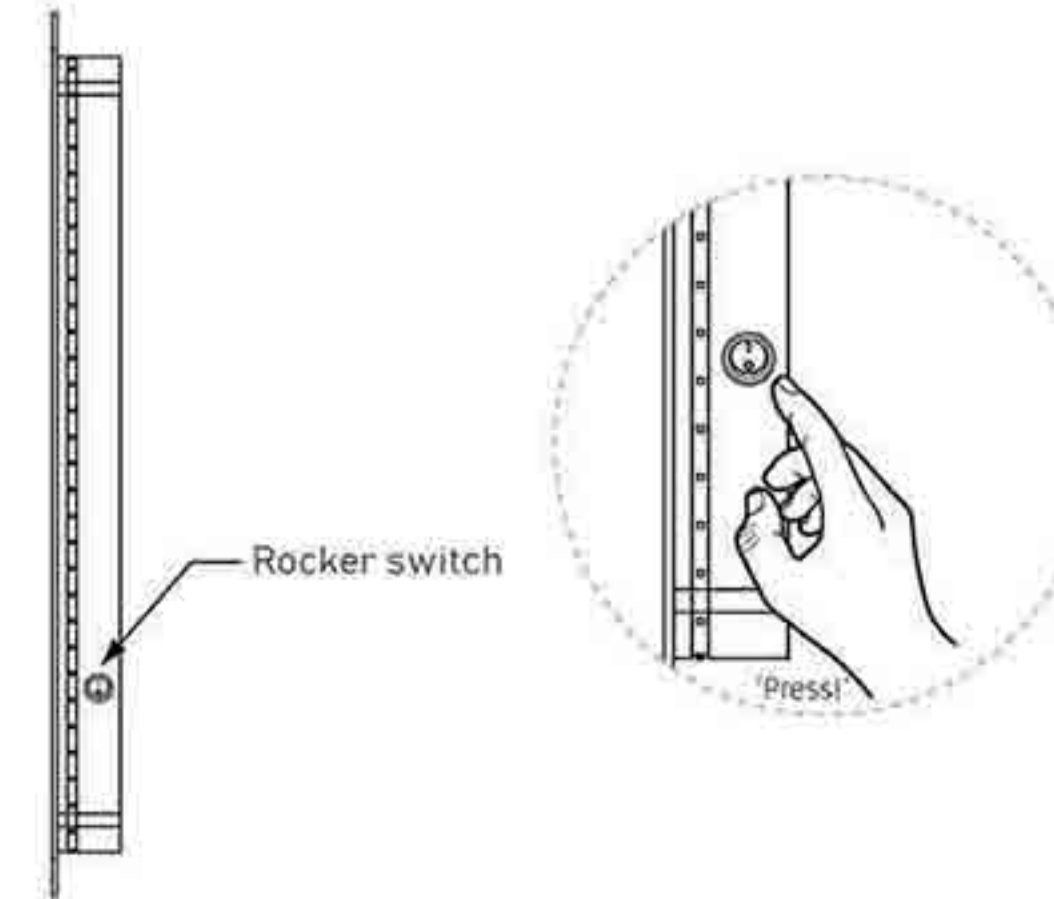

Touch Switch Functions (For example):

- Single Button Control
- 4000K Backlight: The switch backlight remains 4000K even when turned off.
- Color Temperature Cycling: Each press cycles through the following modes: ON → Warm Light → Neutral Light → White Light → OFF (repeats in sequence).
- Long Press for Dimming.
- Screen Off Function: When the light is off, long press to turn off the switch backlight.
- Memory Function: Remembers brightness level but not color temperature.
- Auto-Off Logic: If no operation is performed for 5 seconds, the next press will turn the light off.

ROCKER SWITCH

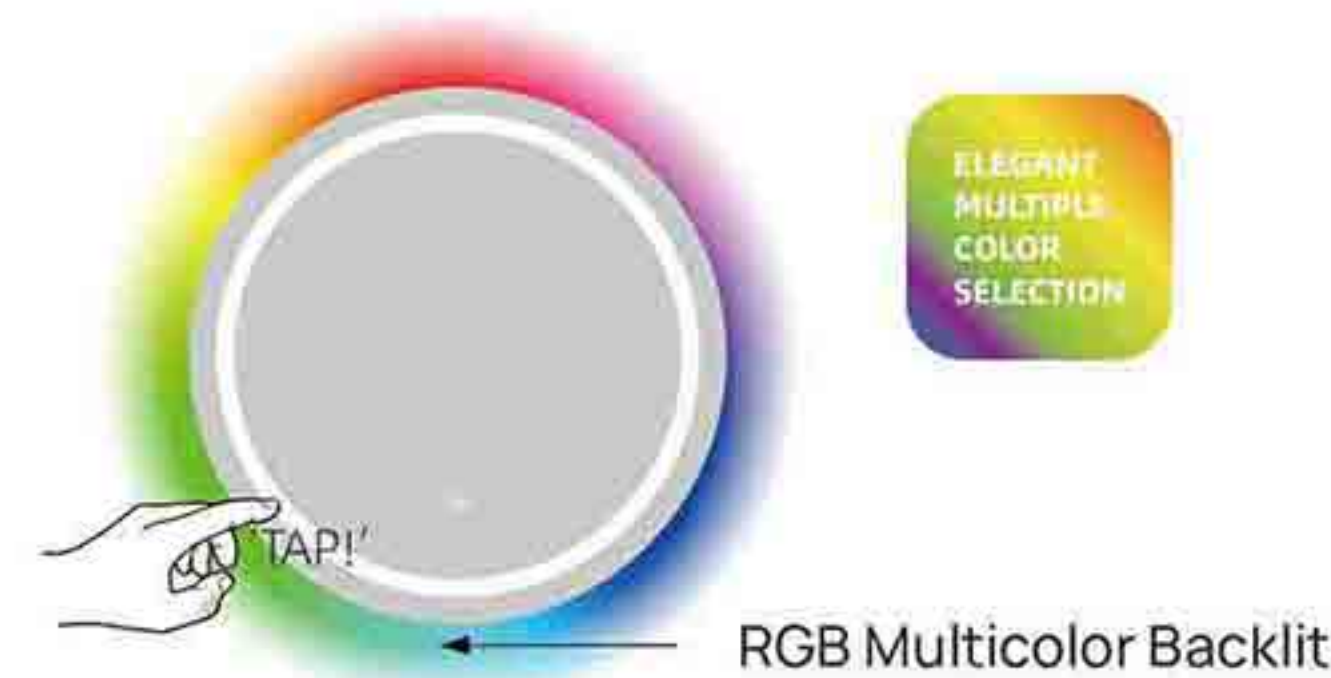

A sturdy and dependable rocker switch is employed to manage additional features.

RGB LED

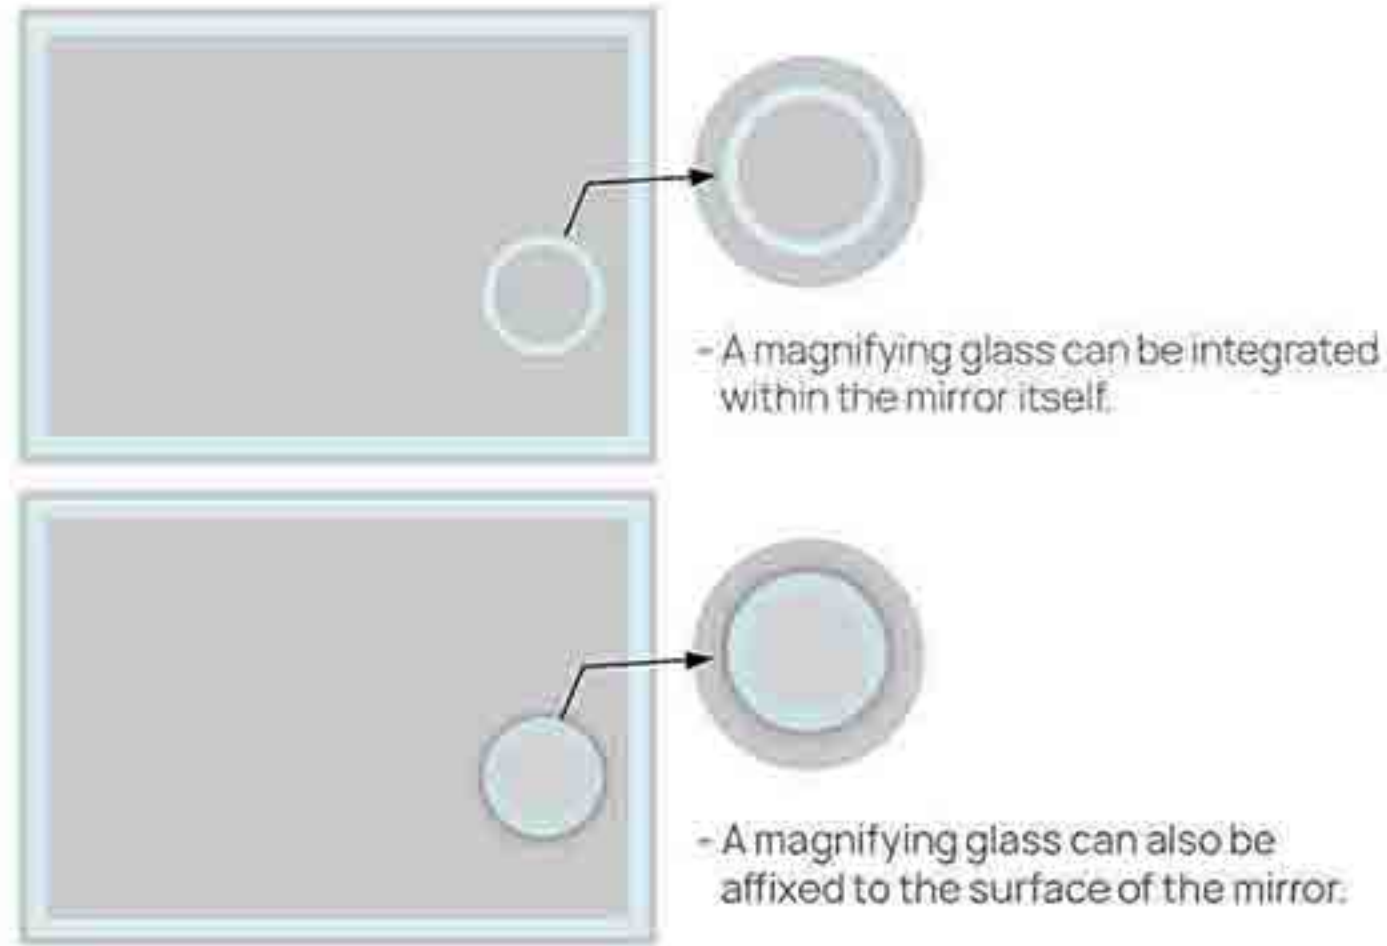

This represents YOWAY's cutting-edge light display technology. Utilizing an IC (Independent Control) chip, it enables multiple colors to be displayed simultaneously on a single strip light, creating a flowing rainbow effect.

- Colorful
- Cold light
- White light
- Warm light
- Pink
- Red
- Green
- Blue

MAGNIFYING GLASS

Elevate your visibility with Yoway mirrors. Our mirrors offer two magnifier options to suit your preferences: a fixed magnifier and a suction-type magnifier.

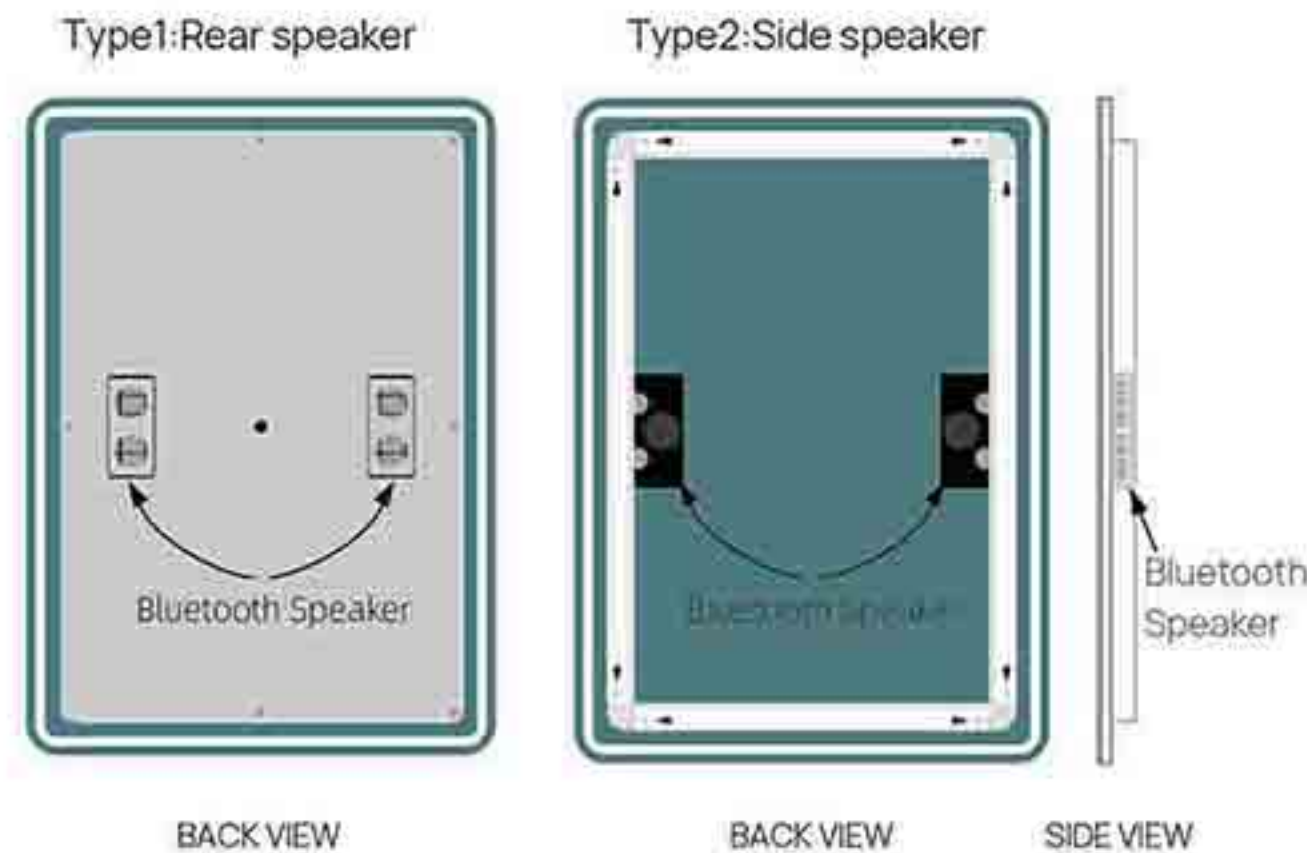

The fixed magnifier is securely affixed to the mirror, providing consistent magnification.

Alternatively, the suction-type magnifier offers versatility, allowing for easy attachment and removal from the mirror surface. Adjust the magnification level according to your needs with this option.

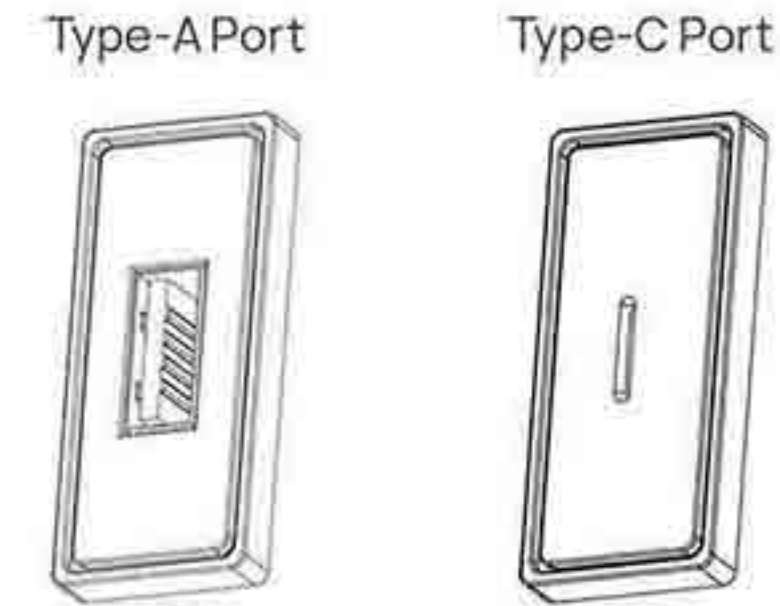

BLUETOOTH SPEAKER

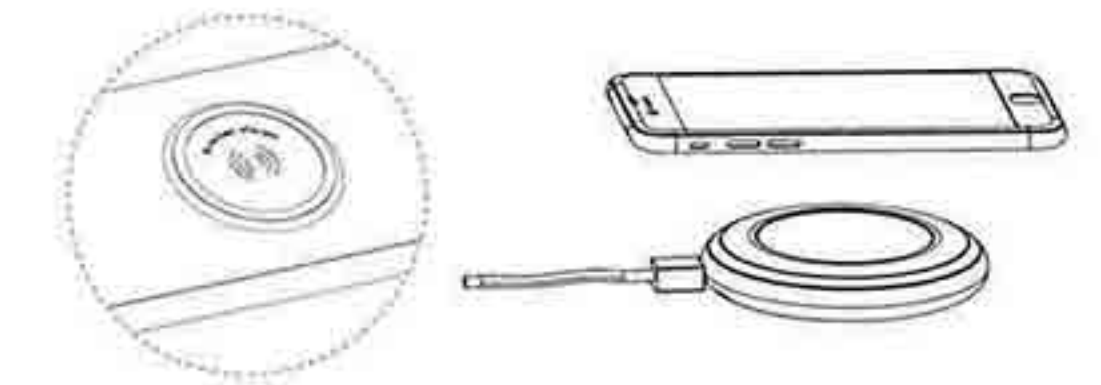

Yoway Bluetooth Mirrors feature high-fidelity stereo speakers that deliver rich bass and precise sound production, even at higher volumes. To further enhance the sound experience, we provide two speaker positions to accommodate different preferences: rear speakers for a more immersive sound environment and side speakers for direct and focused audio.

USB/Type-C CHARGING

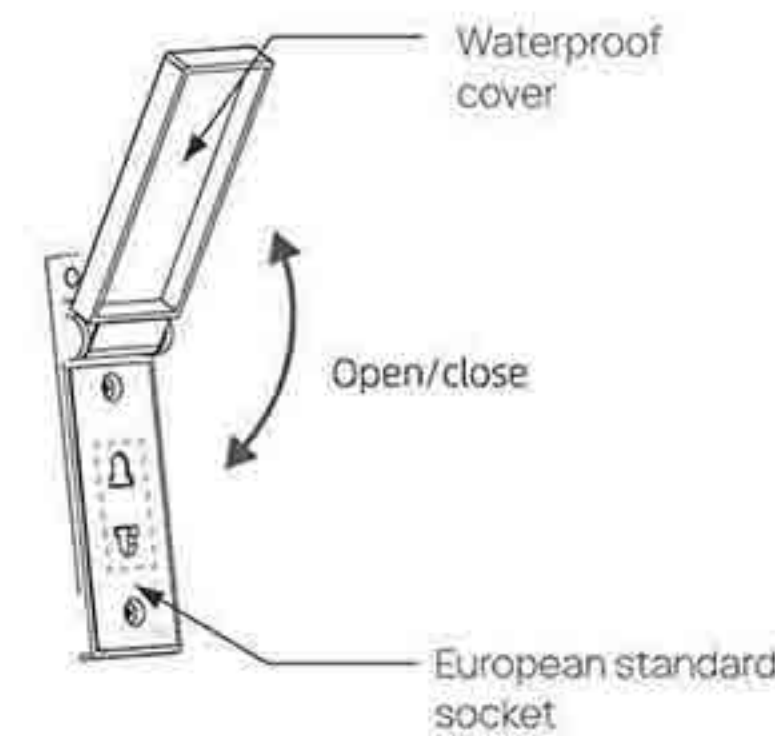

WIRELESS CHARGING

Charging mobile and toothbrush capable of wireless charging

SHAVER SOCKET

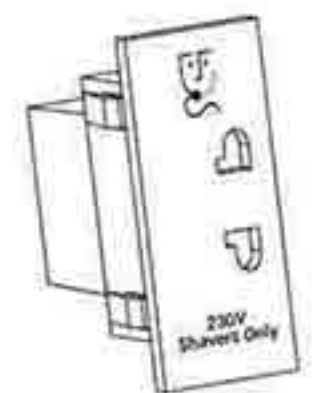

E-012

Higher classification of waterproof with flip

E-012

Smaller width and suitable for narrow borders

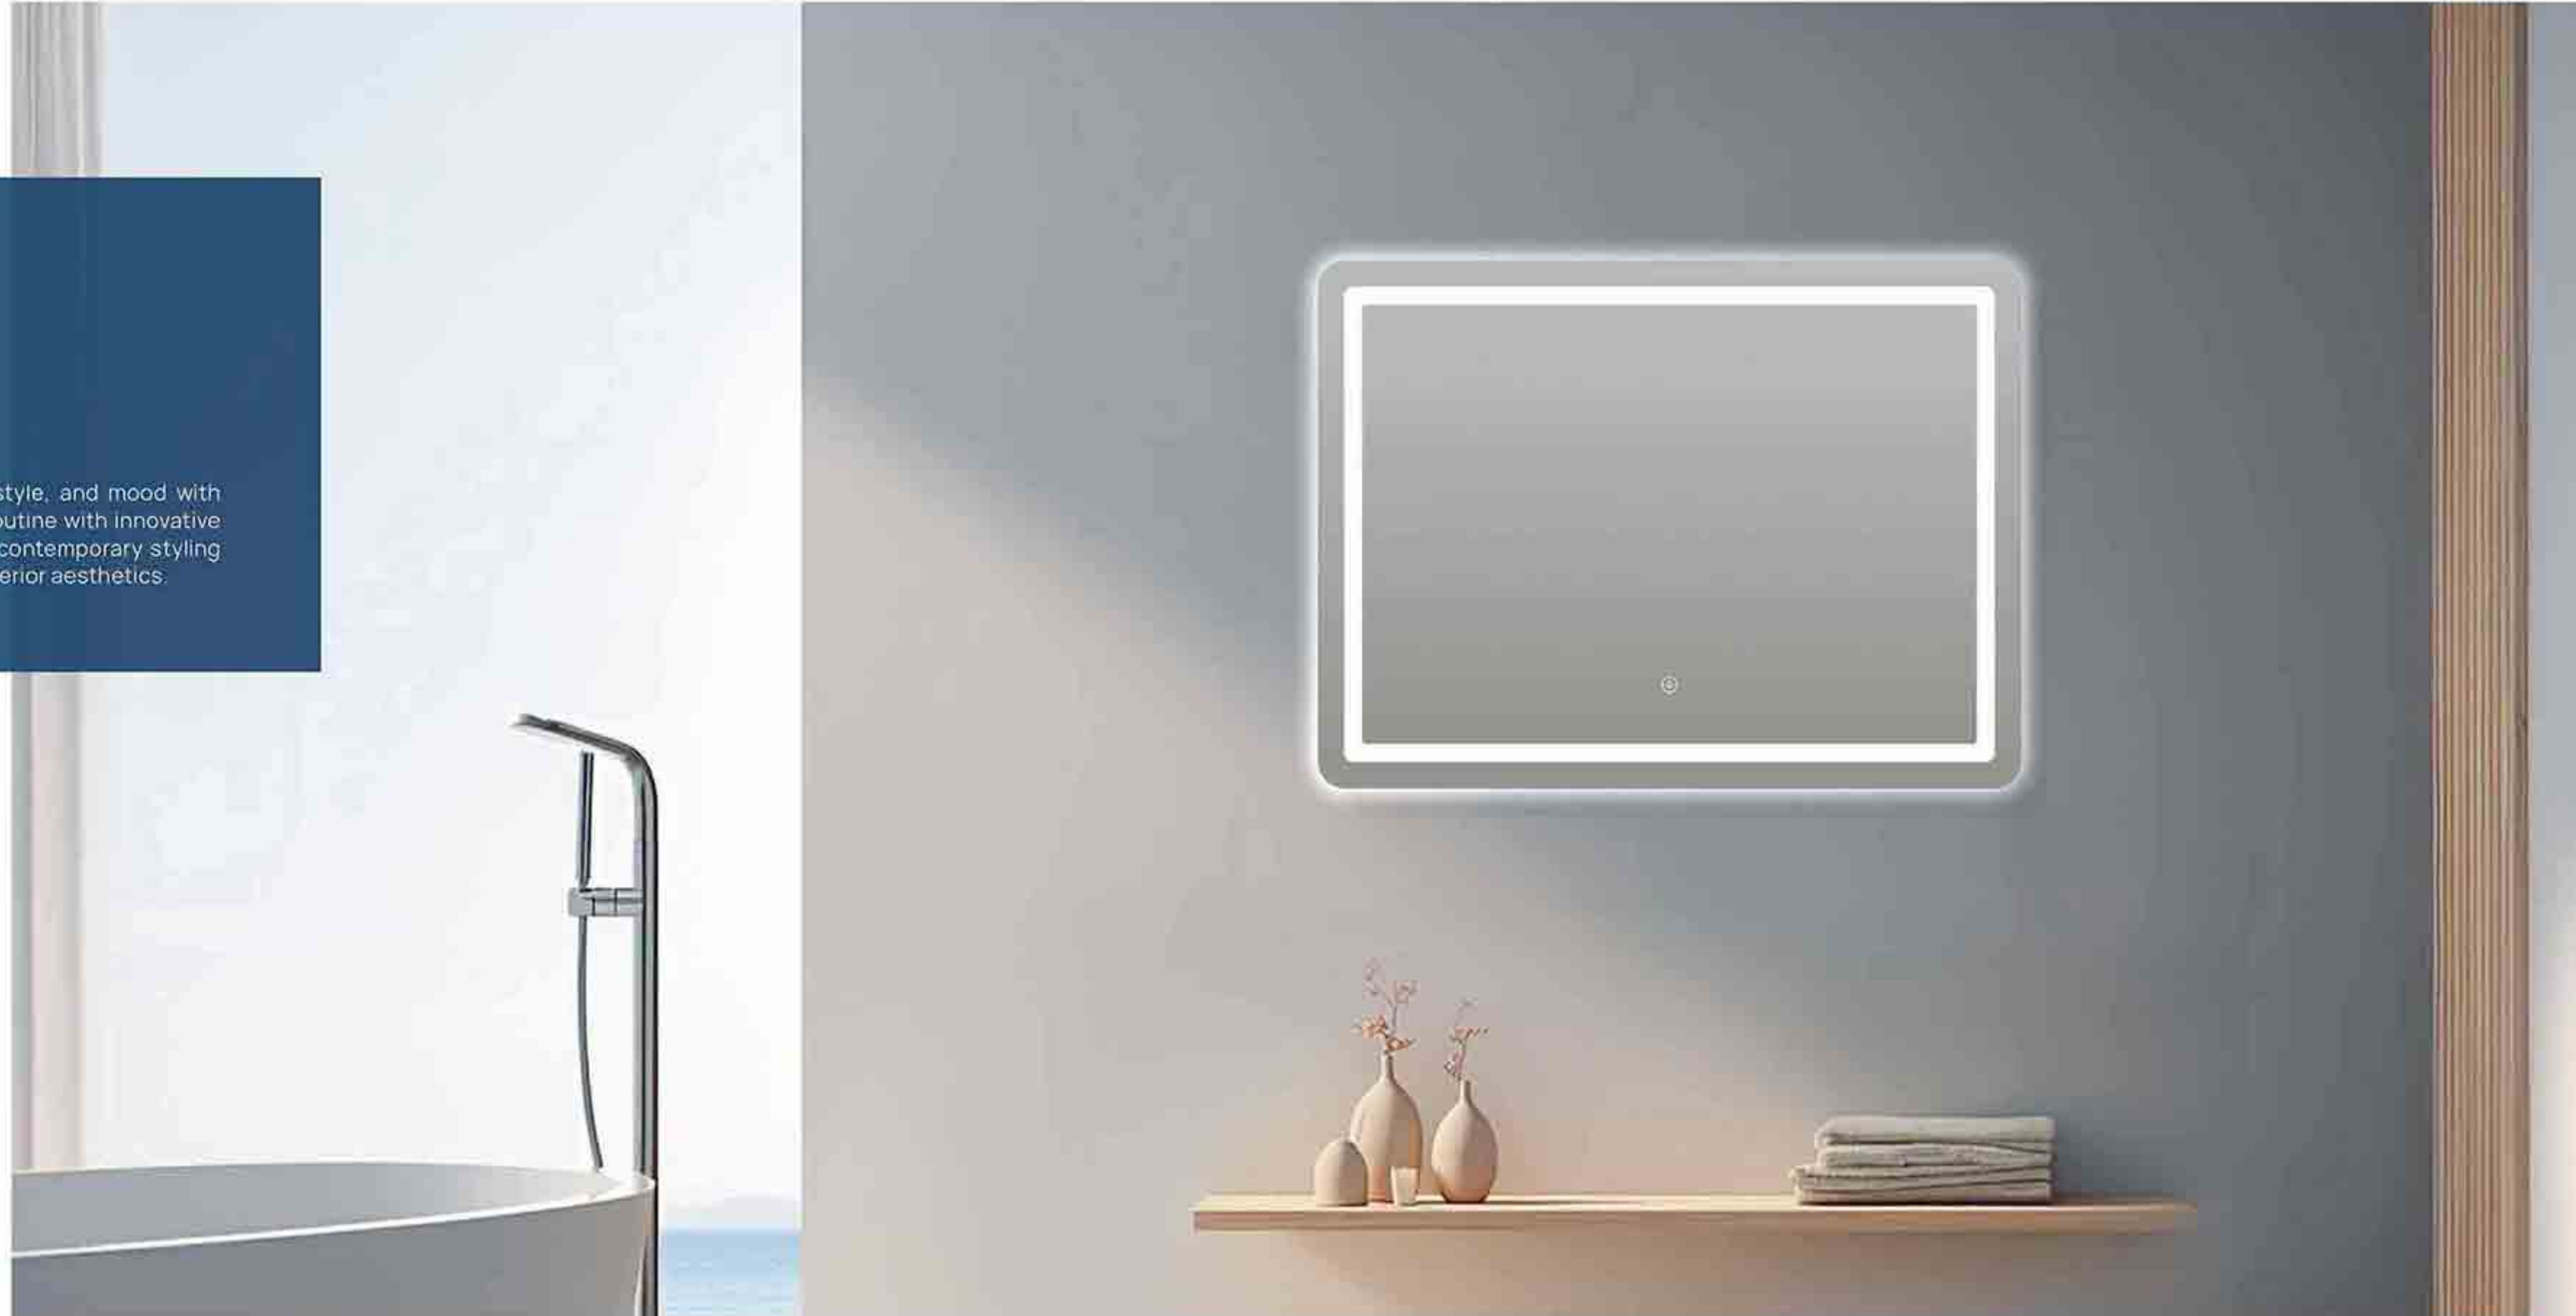

E-015

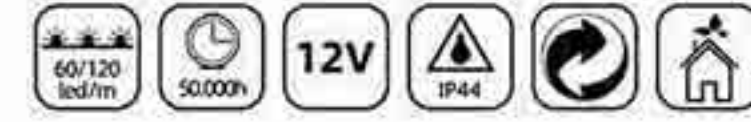

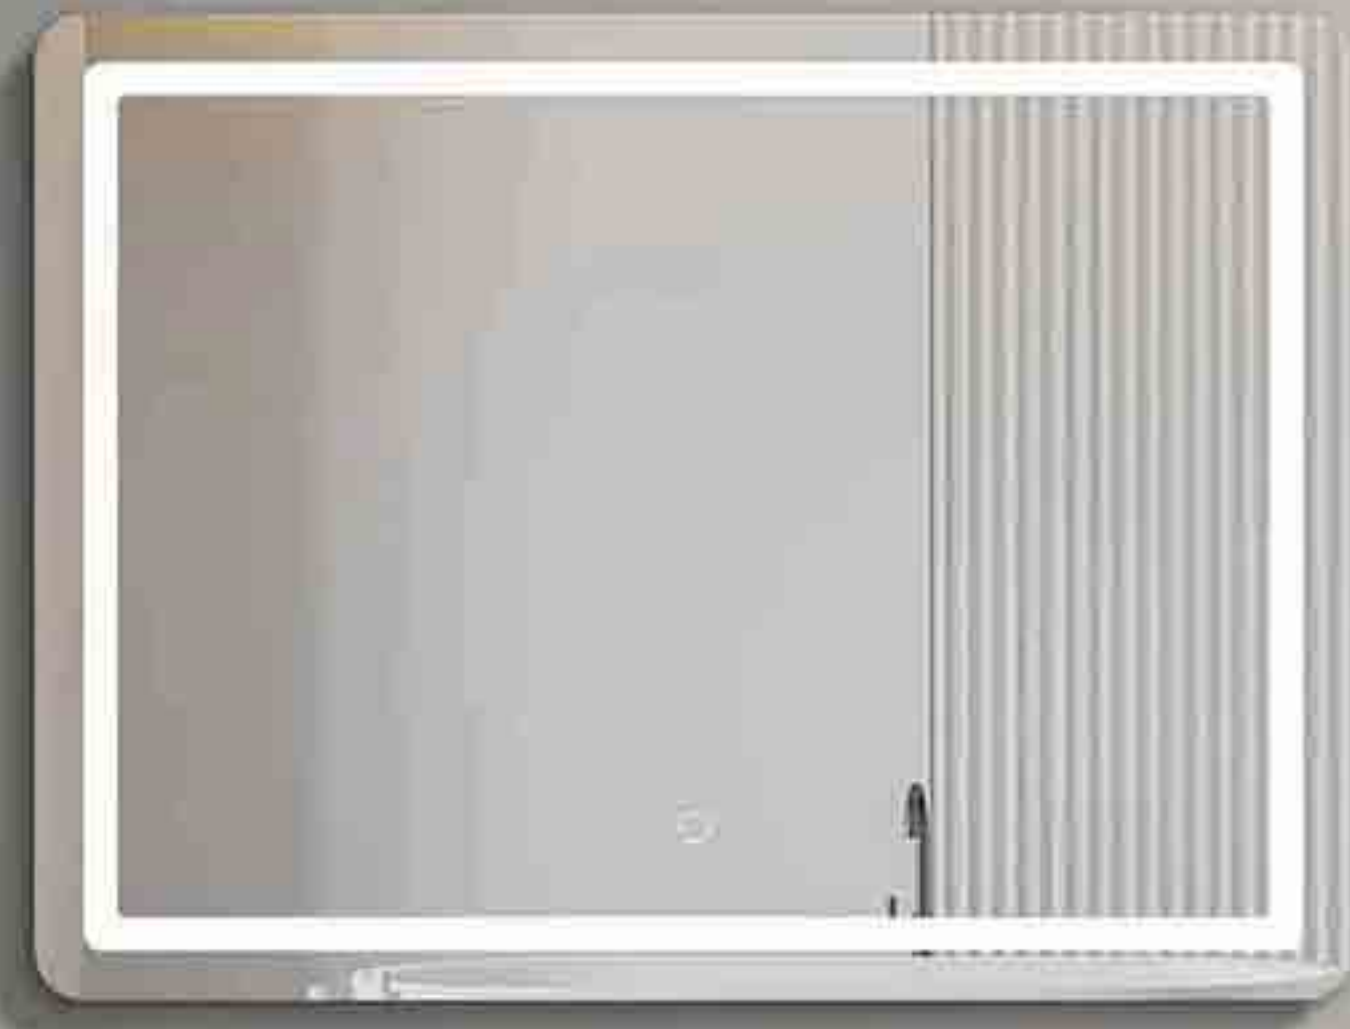

Built-in safety doors can effectively block water sources and improve safety

LIGHTED MIRRORS

Tailor your lighting to match your interior, style, and mood with personalized options. Streamline your daily routine with innovative features like integrated shaver sockets. Our contemporary styling complements both traditional and modern interior aesthetics.
